Brief about your Business/Products (200 words):

HERO ELECTRIC is one of the oldest and India's Largest Electric two-wheeler company and has been at the forefront of the electric 2-wheeler industry. The company's manufacturing unit is in Ludhiana, and it sells a wide range of electric scooters catering to a wide spectrum of customers. Hero Electric currently has over 850+ (and rapidly expanding) sales and service outlets spread across the country along with a widespread charging network and trained roadside mechanics on EVs. It has a lot of firsts in the industry ranging from developing and launching the first lithium ion based electric scooters in India to launching the unique concept of charging stations for anywhere, everywhere charging. With over 5 lakh electric two-wheelers in India, the company has been delivering sustainable travel solutions over the past 15 years and counting & has played a crucial role in developing and promoting the EV market in the country.
