Brief about your Business/Products: (In 200 words) We are one of the leading companies of India involved in the field of Styling, Designing, Development and Manufacturing of Fiberglass Reinforced Plastic (FRP) components for Automotive, Tractors, Railways and Industrial applications. We are an ISO/TS 16949 certified company.

In the process of diversification and technical upgradation, we have introduced a new technology in India called **pDCPD (DiCyclopentadiene)**. **pDCPD is a light-weight high performance plastic for Automotive and Industrial applications.**

We are supplying FRP/DCPD components to OE buyers like Volvo Eicher, Daimler India, Tata Motors, Force Motors, John Deere, JCB, Manitou Equipment, and many more.
