Brief about your Business/Products: Versatile E Scooter is in low speed Electric 2 Wheeler manufacturer, predominantly serving the needs of India in mobility system. Working with a vision of, **“Let there be a personal mobility for every need and everyone”**

Versatile E-Scooters, with extensive research and development, broke all the barriers of economic background and made affordable, innovative, easy-to-handle, and environment-friendly electric scooters available to every individual irrespective of the class. It has revolutionized a market category of ‘Compact, Smart; Economical’ two-wheeler vehicles, to redefine daily mobility challenges.

The socio-economic conditions and affordability of Indian society demand a specific category of vehicles, which we made our mission to achieve. Creating a new dimension to mobility in India in the most economical way is our ultimate goal.

Versatile is a proud contributor to make in India project. Our E-Scooters have been carefully designed to be energy-efficient, affordable and comfortable to the rider.
