**Brief about your Business/Products:** The automotive world is evolving at an unprecedented pace. At Infineon, we look back on 40 years of success and proven expertise in supplying high-quality semiconductors to electronic systems for the automotive industry. Today, our sensors, microcontrollers and power semiconductors help car manufacturers worldwide achieve their ever-higher challenging safety, affordability and efficiency targets. In terms of your projects, this means we are ready and able to help you design applications that, thanks to their lower emissions and reduced fuel consumption, pave the way for more sustainable mobility
