Brief about your Business/Products: Our Electric Mobility portfolio includes a whole span of solutions for the Two-wheeler, Three-wheeler, Passenger Car, Bus and Truck Electrification, ranging from providing selected sub-systems to complete electric powertrains as well as light weight structural components.

We provide these products and services in collaboration with our technology partners – Refu Drive GmbH [Germany], Tork Motors [Pune, India], Harbinger Motors [California, US] and Tevva Motors [UK].

Our Product Portfolio includes:

- Individual Components like DC-DC Converter, Traction Controller, Traction Motor Controller, On-board Charger, Auxiliary Inverter, Combi Inverter, Vehicle Control Unit and Gearbox
- Sub-systems which include smaller Electric Drive Units (Motor + Controller + Gearbox; Motor + Controller + Vehicle Control Unit)
- Complete Powertrain kits
