### **Brief about your Business/Products:**

(In 200 words)

Olectra Greentech Limited (Olectra) is one of the largest Pure Electric Bus manufacturer having manufacturing facility at Jadcherla, near Hyderabad, India. Olectra has deployed 950+ electric buses and successfully running. Olectra Electric Buses have covered more than "8.5+ Cr. Electric kms" successfully on various terrains all across India. Also, Olectra has provided its Electric Buses to various STUs across India for demonstrating the performance of EV Technology and thus to promote EV technology. Olectra is now entering into new business with the most premium and advanced technology electric heavy-duty tippers. We are also the First Company to get homologation for e-buses in India. Olectra is now entering into Global market with

their most premium and advanced technology electric buses and electric heavy-duty trucks.  
Currently, Olectra is working closely with various Private Bus operators, users, corporates and schools for replacing old ICE buses with e-Buses.
