Brief about your Business/Products: SUN Mobility is a global leader in providing universal energy infrastructure and services to the transport sector enabling electric vehicles to be refueled in a faster, cheaper, and more convenient way; thereby helping the mass adoption of electric vehicles globally and transition to a sustainable, pollution-free future. Founded in 2017, SUN Mobility is a joint venture between SUN Group and Maini Group, both pioneers in areas of electric mobility and clean energy. The company is co-founded by Chetan Maini, the founder of Reva Electric Car Company which is now Mahindra Electric, Uday Khemka, Vice Chairman of SUN Group, and Ajay Goel, Co-Founder & Executive Director. In 2019, Bosch acquired stakes in SUN Mobility and has been a strategic partner in accelerating

the technological evolution of the company. Vitol, the world's largest independent oil trading organization, is also a strategic investor in the company.

SUN Mobility's energy solution, deployed at Swap Points™, leverages its interoperable battery-swapping technology by means of a Smart Battery, Quick Interchange Station, and Smart Network. The organization is working with fleet operators, shared mobility providers, cities, and automotive OEMs across all platforms including 2 and 3-wheelers to challenge the status quo with an economical, scalable, and smarter way forward. SUN Mobility has deployed over 210 Swap Points™ across 18 cities in the country, powering over 51 million km and over 2.7 million swaps so far.
