About Waaree:

Waaree Energies Ltd., the flagship company of the Waaree Group, was founded in 1989 and is India's largest solar module manufacturer with a capacity of 12 GW. It has four state-of-the-art solar module manufacturing facilities and a presence in 388+ locations nationally and 68 countries internationally. It is leading in solar panel manufacturing and providing complete solar EPC solutions, including solar inverters, Lithium-ion batteries, solar thermal, and Solar & Industrial cables. Waaree is the only PV panel manufacturing company from India that has been rated Tier 1 consistently for the past 32 quarters by BloombergNEF, making its products highly reliable and trustworthy.
