Brief about your Business/Products: Wardwizard Innovations & Mobility Limited is one of India's leading providers of clean and green solutions under its core vertical, Joy E-Bike. The Company was formed under the pragmatic leadership of Mr. Yatin Gupte, Managing Director and Chairman. The Company, headquartered in Vadodara, Gujarat is India's first BSE-listed entity with the core value of EV manufacturing. Joy E-Bike has over ten models in both high and low speed categories, serves over 55,000 customers through over 600 touch points, and is present in over 55 cities as well as countries throughout the Middle East, Europe, and Africa. The company owns 4 million square feet of land in Vadodara for the development of India's first electric vehicle ancillary cluster, with an annual production capacity of 4 to 6 lac units. It foresees fostering the growth of the EV industry with the manufacturing of essential components like lithium-ion cell manufacturing unit, lithium-ion battery assembly unit, electric motor, chassis, steel parts, chargers, controllers, R&D centre, production for electronic components, etc. The Company envisions empowering 55,000 Enterprises for Prosperity. As a part of future plans, the Company plans to raise 1300 crore from the market to fund expansion and make a debut in the 3W Passenger segment.
